YOUR NEW BUS ROUTES

The new routes are the outcome of a consultation period. We received over 3,500 suggestions. We held meetings with all local councils. We discussed, analysed and designed. This is the result.

The new routes are tailor-made according to each locality's needs. We will introduce the changes gradually to allow enough time for everyone to adapt. We will have 140 new buses, they will reach new areas and will be more frequent.

Enjoy the trip.
